

Cleaning cents

80 000 cents pr. tub

6 tubs pr. day

$80\,000 \times 6 = 480\,000$  cents pr. day

For pickling & cleaning cents,

6 pitchers aq. foot. = 150 lbs.

$150 \text{ lbs.} \times .06 \text{¢} = \$9.00$

3 men @ \$3.00 pr. day 9.00

$\$18.00 = \text{cost}$

for 480 000 for acid & labor

Hence for 100 000 cents the cost

is  $\$3.75$
